THE GAME

Here it comes! ... an attack of multi-colored meteors with an occasional spinning bomb that will blow up one of your guns if you let it land. PLUS — some guided missiles and an Attack UFO, just to keep life interesting. As your score increases, so does the excitement!

OBJECT OF THE GAME

To hit as many meteors, bombs, missiles and UFO's as possible, without being hit yourself. As your score gets higher, the game gets faster and more challenging. Take turns with your friends to see who can get the highest "peak score".

3 Hit as many meteors as you can — every one that lands reduces your score. If a meteor hits your laser gun, it destroys your gun.

4 Be SURE to hit every white “spinner”! Try to hit or avoid guided missiles and attack UFOs (which appear when your score is over 20,000 points!)

5 Every time your score goes up another 1,000 points, you get another laser gun in your arsenal.

6 Scoring formula:

Your score goes *UP* when you hit...

| | BIG ROCK | SMALL ROCK | WHITE SPINNER | GUIDED MISSILE | UFO |
|-------|---|--|---|---|---|
| LEVEL |  |  |  |  |  |
| 1x | 10 | 20 | 40 | 50 | — |
| 2x | 20 | 40 | 80 | 100 | — |
| 3x | 30 | 60 | 120 | 150 | — |
| 4x | 40 | 80 | 160 | 200 | 400 |
| 5x | 50 | 100 | 200 | 250 | 500 |
| 6x | 60 | 120 | 240 | 300 | 600 |

Your score goes *DOWN* when...

| LEVEL | BIG ROCK LANDS | SMALL ROCK LANDS | YOUR GUN IS HIT, OR A SPINNER LANDS |
|-----------|---|---|---|
| |  |  |  |
| 1x | - 5 | - 10 | - 100 |
| 2x | - 10 | - 20 | - 200 |
| 3x | - 15 | - 30 | - 300 |
| 4x | - 20 | - 40 | - 400 |
| 5x | - 25 | - 50 | - 500 |
| 6x | - 30 | - 60 | - 600 |

Scoring level changes:

| LEVEL | BACKGROUND COLOR | SCORE RANGE |
|-----------|---------------------|------------------|
| 1x | Black | up to 999 |
| 2x | Blue | 1,000-4,999 |
| 3x | Purple | 5,000-19,999 |
| 4x | Turquoise | 20,000-49,999 |
| 5x | Gray | 50,000-99,999 |
| 6x | Black | 100,000 and over |

NOTE: SCORING LEVEL is not the same as the **LEVEL OF DIFFICULTY** you choose when you start the game. Scoring level is determined by the number of points you have accumulated. When you get 1,000 points, you graduate from scoring level 1 to scoring level 2. This means that the number of points you get for each object you hit doubles: When you reach scoring level 3, it triples... and so on. **AT THE HIGHER SCORING LEVELS, EVERYTHING SPEEDS UP AND YOU HAVE MORE TARGETS AND ATTACKERS, MOVING FASTER — ESPECIALLY WHEN THE TOTAL PASSES 100,000, 200,000, 500,000 AND ONE MILLION POINTS!**

7 When you hit a meteor and it splits in two, try to hit both fragments: each gives you twice as many points as the original meteor!

8 Whenever you see a **WHITE** object, avoid it or shoot it down.

■ **WHITE SPINNERS** — Hit every one you can. If one lands, you lose a laser gun. (When you lose them all, the game is over.)

■ **PULSATING GUIDED MISSILES** — These seek out your laser gun and blow it up on impact! If you can, shoot it before it lands. If it reaches the ground, it may home in on your gun by flying horizontally. When this happens, your only escape

is to go into HYPER SPACE! When you press HYPER-SPACE (SHIFT key on the computer keyboard), your laser gun moves left or right a random distance. The guided missile will attempt to follow and you may have to go into hyper space again. (Danger: It is possible to hyper-space directly under a falling meteor.)

■ **Attack UFOs** — These appear occasionally when your score is over 20,000 points. They sweep across the screen, aiming huge bombs at your active laser gun. The bombs fall slowly enough for you to move out of the way. Keep moving! Try to get directly beneath the UFO and shoot it down!

9 Do not fire at meteors that are very close to your laser gun, as the explosion from hitting it may produce shrapnel and blow up your gun.

10 When you get good at ASTROSMASH® the game can go on for some time. If you want a break in the action, use the INTERRUPT CODE. Press KEYS 1 and 6 TOGETHER, on either the Computer Keyboard or a Hand Controller. This will "freeze" the action on the screen until you press any other key on the keyboard or hand controller.

IMPORTANT: Do not leave the game in interrupt mode for over an hour, especially if the TV contrast is set at maximum, as this could damage your TV screen.

START A NEW GAME

IF YOU WISH TO PLAY AGAIN AFTER THE GAME IS OVER, PRESS THE **RST KEY** ON THE COMPUTER KEYBOARD.
